**Name of Offeror or Contractor:**

SECTION A - SUPPLEMENTAL INFORMATION  
1. Question 1  
Reference Solicitation: page 48, Para M-1B; Weighting.

Q - Referenced paragraph only specifies (1) technical, (2) past performance, and (3) cost/price for consideration. The section below discusses the need to submit a management section for consideration in addition to those specified in the referenced paragraph. Shouldn't management be part of (2), above, as an equivalent or part of the weighting criteria as a fourth item?

A - Paragraph M-1 B.1. states: Technical approach and management approach will be evaluated and given an adjectival rating of excellent , good, satisfactory, marginal, or unsatisfactory.

Paragraph M-1 C. states; The factors, in descending importance, are: Technical approach is most important, past performance and management approach are next in importance and considered equal, and cost/price is least important.

Management approach is being evaluated.

2. Question 2  
Reference: Page 47 of 52; Section 4.2.n (past performance) specifies a limit of 100 words to describe how the requirements of the project are comparable to the statement of work requirements.

Q - Is that limit correct (or is it a typo and should be 1,000 words)?

A- 100 words is correct.

3. Question 3  
Q - Can third party training be conducted at the CDTF on a non-interference basis under the new solicitation?

A - Yes, but it is the contractor's responsibility to manage the use of the facilities to ensure that the programmatic priorities for training are achieved. Thus, while the facilities are provided as GFP to the CDTF contractor, the contractor must ensure that the priorities for lab training of systems contractor personnel, training of government personnel as specified in the contract, and high priority process equipment test and evaluation are not adversely impacted due to scheduling of third party training. System contractor personnel will have first priority among third party training.

4. Question 4  
Reference Solicitation: page 44, paragraph D.3.a.

Q - The solicitation requests all cost information be in Volume III - Cost/Price. Subject paragraph asks for cost information in the Volume II - Management Approach. Do you want this cost information in Volume II?

A - Yes

5. Question 5  
Reference Solicitation: page 45, Volume III, Section A.8.d and A.8.e of the Solicitation, there are requirements to propose 12 man-years for designing and fabricating equipment and test items to support munitions demilitarization activities (i.e. Test and Evaluation) for all five years of the contract. A portion of that work is currently on contract at each of Chem-Demil facilities, which, on the aggregate, total the 12 FTEs currently on staff with General Physics. It appears that this requirement is the same 12 FTEs currently on staff, and under contract, with the systems contractors.

Q - Is it the Government's intent to de-scope that portion of the work from the site's contracts and subsume it into the CDTF contract?

A - No, and page 45 remains unchanged.

6. THE FOLLOWING CHANGES ARE MADE TO THE SOLICITATION  
a. Solicitation, Section A, page 3, Paragraph 4, send both the hard copies and electronic copy of the complete proposal to:

**Name of Offeror or Contractor:**

b. Solicitation page 15, Clause I-90, 52.248-1 Value Engineering (Feb 2000) does not apply to Statement of Work, paragraphs 1.2.5 and 1.2.6.

c. Solicitation page 50, Paragraph III.A. is changed as follows:

The cost/price proposal for cost plus fixed fee contract line item numbers (CLINs) will be evaluated to assess reasonableness and realism. The fixed price CLINs will be evaluated to assess reasonableness using price analysis. The staffing plan must be consistent with the cost/price proposal. Cost realism will include, if necessary, an adjustment by amounts determined through an analysis based on the offeror's technical/management approach and by any other amounts deemed necessary by the PCO to arrive at a most probable cost (MPC) to the government for the proposal. The total evaluated pice will be determined by adding the prices of all the fixed price and cost reimbursable CLINs, including any MPC adjustments.

7. Change Statement of Work, paragraph 1.2.2 as follows:

1.2.2 Providing for the maximum efficient utilization of the CDTF through effective scheduling of courses for Government and systems contractor personnel. While training of systems contractor personnel is the responsibility of the systems contractors and not generally a requirement of this contract, it is the responsibility of the CDTF contractor to coordinate with the systems contractors for training at the CDTF when it can be accomplished efficiently and effectively. Third party training is permitted under this contract on a non-interference basis. Third party training for system contractor personnel takes priority over other third party training. It is the contractor's responsibility to manage the use of the facilities to ensure that the programmatic priorities for training are achieved. Thus, while the facilities are provided as GFP to the CDTF contractor, the contractor must ensure that the priorities for lab training of systems contractor personnel, training of government personnel as specified in the contract, and high priority process equipment test and evaluation are not adversely impacted due to scheduling of third party training.

8. The closing date and time remain the same (14 June 2004 4:30 p.m.)

9. PAST PERFORMANCE DATA IS DUE 8 JUNE 2004 (25 days after solicitation was issued; page 47 paragraph IV.5.).
